DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendment filed on May 27, 2008 in which applicant cancels claims 1-20, adds claims 20-28, and attempts to respond to the claim rejections. The Examiner notes Applicant cancelled claim 20, thus the new claims should have been numbered 21-29.

The rejections as stated in Office Action, Paper No. 02/25/2008 are retained and incorporated herein with respect to new claims 20-28 (21-29) because the new claims are essentially the previous claims written in a different format, i.e. less claims.

Response to Arguments

- 2. Applicant's arguments filed 5/27/08 have been fully considered but they are not persuasive.
- 3. Applicant alleges the claims have been rewritten as system claims which should overcome the rejections. However, the Examiner notes the cancelled claims were also directed to a system and does not see how this statement distinguishes the new claims over the cancelled claims much less over the prior art.
- 4. Applicant alleges the claims have been rewritten to overcome the obviousness rejection applied with respect to Boushy. However, Applicant simply rewrites the same claim information in a different form-in less number of claims. Moreover, Applicant has failed to explain how such amendments overcome the prior art. Additionally, Applicant argues that the claim amendments overcome the prior art "Friesen" because the reference does not disclose "material ...added to the base claims." First, the Examiner did not reject the claims with Friesen. Second, Applicant's

statement is so nebulous that Examiner is unable to respond to the response. Accordingly, Applicant should properly address the rejection in the next response.

- 5. Applicant then states, "The some of the new elements that have been added to the main independent claim includes "monitoring gaming service provider hotel inventories, gaming space, and desired gamers." The Examiner respectfully requests an explanation of what this claim language means and how the amendment distinguishes from the prior art as is required by Applicant's response. See MPEP.
- 6. For these reasons, the Examiner maintains the previous rejections.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
